APPLICATION TESTING — TEST CASES | TUTORIAL 10

Expected Result	Actual Result / Evidence
Username and Password fields and the LOGIN button are displayed.	Screenshot 1 shows the Swag Labs login page with Username and Password fields and a red LOGIN button.
Products are listed with their details, prices and Add to cart controls.	Screenshot 2 shows Sauce Labs Backpack, Bike Light, Bolt T-Shirt and Fleece Jacket cards with prices and Add to cart buttons. A Name (A to Z) sorting control is visible.
Selected items and cart controls are displayed correctly.	Screenshot 3 shows Sauce Labs Backpack ($29.99) and Sauce Labs Bolt T-Shirt ($15.99), each with quantity 1, plus Remove, Continue Shopping and Checkout controls.

APPLICATION TESTING — TEST CASES | TUTORIAL 10

Expected Result	Actual Result / Evidence
The checkout information form shows First Name, Last Name and Zip/Postal Code fields with navigation controls.	Screenshot 4 shows the Checkout: Your Information page with First Name, Last Name and Zip/Postal Code fields, plus Cancel and Continue buttons.
The username and password fields accept input; successful authentication must be verified by submitting and checking the next page.	Screenshot 5 shows standard_user in the username field and a populated password field. The screenshot does not prove that Login was submitted or authentication succeeded.
