Tutorial	Tutorial 7
Tester Name	Not specified
Application / P	Selenium Web Form (selenium.dev) and TutorialsPoint Selenium Automation Practice Form
Environment	Browser screenshots supplied; browser/OS versions not provided
Objective	Review visible form controls and submission confirmation in the supplied screenshots, arranged in a logical sequence.

Scenario ID	Scenario	Test Steps	Test Input
7c	Review repeated TutorialsPoint Text Box screenshot	1. Compare Screenshot 3 with Screenshot 2. 2. Check whether a new page state or user action is evidenced.	Screenshot 2 and Screenshot 3
7d	Review Selenium Web Form controls	1. Review the second Selenium Web Form capture. 2. Check the visible control types and Submit button.	Selenium Web Form page capture

Module Name	Selenium Web Forms and Submission Confirmation
Test Case Grou	TC-007
Tutorial	Tutorial 7
Tester Name	Not specified
Application / P	Selenium Web Form (selenium.dev) and TutorialsPoint Selenium Automation Practice Form
Environment	Browser screenshots supplied; browser/OS versions not provided
Objective	Review visible form controls and submission confirmation in the supplied screenshots, arranged in a logical sequence.

Scenario ID	Scenario	Test Steps	Test Input
7e	Review Selenium Web Form before submission	1. Review the form capture before the displayed submission result. 2. Note whether entered values are visible.	Selenium Web Form page capture
7f	Review submitted-form confirmation	1. Review the submission result page. 2. Verify the visible heading and confirmation message.	Submitted-form confirmation page

SELENIUM WEB FORM TESTING — TEST CASES | TUTORIAL 7

Expected Results	Actual Results / Screenshot Evidence	Status
The Selenium Web Form and its visible controls are displayed.	Screenshot 1 shows the Selenium Web Form page with text input, password, textarea, disabled and readonly inputs, dropdowns, file input, checkbox/radio controls, color picker, date picker, range slider, and Submit button.	Observed in screenshot
The Text Box page shows the four labeled fields and Submit control.	Screenshot 2 shows TutorialsPoint's Selenium Automation Practice Form > Text Box page with Full Name, Email, Current Address, Password, and Submit controls.	Observed in screenshot

SELENIUM WEB FORM TESTING — TEST CASES | TUTORIAL 7

Expected Results	Actual Results / Screenshot Evidence	Status
The capture is identified as repeated evidence unless a distinct state can be established.	Screenshot 3 appears to be a repeated capture of the same TutorialsPoint Text Box page shown in Screenshot 2.	Duplicate/Repeated evidence
The same form control groups remain visible.	Screenshot 4 shows the Selenium Web Form again, including text/password fields, textarea, dropdowns, file input, checkbox/radio controls, color picker, date picker, range slider, and Submit button.	Observed in screenshot

SELENIUM WEB FORM TESTING — TEST CASES | TUTORIAL 7

Expected Results	Actual Results / Screenshot Evidence	Status
The form and Submit button are visible; any unshown input action remains unverified.	Screenshot 5 shows the Selenium Web Form with the same controls and a Submit button; no entered values are clearly visible.	Observed in screenshot
The confirmation page displays 'Form submitted' and 'Received!'.	Screenshot 6 shows a page headed 'Form submitted' with the message 'Received!' and browser developer tools visible beside the page.	Observed in screenshot

Comments	Screenshot
Visible UI only; control behavior was not individually exercised in the supplied evidence.	Screenshot 1 (embedded in Word report)
This is a separate practice site from selenium.dev; keep its evidence distinct.	Screenshot 2 (embedded in Word report)

Comments	Screenshot
Appears duplicated; no distinct action/state is established by the image.	Screenshot 3 (embedded in Word report)
Screenshot is similar to Screenshot 1.	Screenshot 4 (embedded in Word report)

Comments	Screenshot
Entered form values are not clearly evidenced.	Screenshot 5 (embedded in Word report)
Confirmation is visible, but the screenshots alone do not establish which exact form submission produced it.	Screenshot 6 (embedded in Word report)
