Test ID: TC08

Test Case: Verify Logout functionality

Execution Steps:

1. Open the website.
2. Login successfully.
3. Check the available options after login.
4. Verify whether the Logout option is available.

Expected Result: Logout option should be available and the user should be able to logout successfully.

Actual Result: Logout option is not available after login, so the user cannot perform the logout operation.

Status: FAIL

Defect ID: BUG-001

Bug Title: Logout option is not available after login

Severity: Medium

Priority: Medium

Steps to Reproduce:

1. Open the website.
2. Login using valid credentials.
3. Navigate through the website.
4. Check the available account/navigation options.
5. Observe that the Logout option is not available.

Expected Result: A Logout option should be available so that the logged-in user can safely logout.

Actual Result: The Logout option is not available after login.

Status: Open
